## CAPITAL PROJECT UPDATES

We are pleased to report on projects completed in 2021, as well as ongoing and new projects planned for 2022:

- **Diesel Tank Installation (completed):** A new 500-gallon diesel tank was installed at the PRPD maintenance yard. This will help with staff safety, efficiency and equipment availability.
- **Tree inventory maintenance (completed):** All parks had extensive tree pruning, maintenance and evaluation, as part of our annual arborist contract.
- **Prospect Arena Park Redesign (completed):** The redesign was approved by the PRPD Board of Directors and will serve as a guide as we begin the three-phased improvement construction process in the coming years.
- **Serene Conservancy & 32nd Avenue–Peaks to Plains Trail Connection (in-progress):** The Serene Conservancy trails, restoration, and nature playground installation project continues to progress through the County grading permit process. The trail connection

- between 32nd Avenue and Clear Creek Crossing had the phase 1 (east property line of the Applewood Golf Course) initial design approved and we continue to work with Molson-Coors on the next segment running east-west along their storage pond. The plan is to have PRPD Board approved designs, cost estimates and schedules for completion of each phase of the project by the end of 2022.
- **Turf Rehab & Park Maintenance (new):** In the coming months, staff will be working to rehabilitate a number of turf areas throughout the district at Applewood Park, Maple Grove Park and Fairmount Park. We will also be working on improving the sand volleyball courts, repairing fencing, parking lot maintenance, and improvements to Kendrick Cottage.
